HP EliteBook 8460p Notebook PC

Corporate Elite

HP's premier business notebook with a new professional design, 35,6 cm (14") diagonal HD [1] display, new Intel technology, choice of graphics and industry-leading battery life [2].

HP recommends Windows® 7.

Enhanced performance and graphics
Create documents, presentations and spreadsheets and quickly share them with co-workers. The new Intel architecture features 2nd generation Intel® Core™ i7 [3] and i5 [3] dual-core processors, offering incredible performance, responsiveness and enhanced graphics.

Choose Intel® HD Graphics 3000 [4] for responsive performance and rich media capabilities. Alternatively, choose AMD Radeon™ HD 6470M discrete graphics for an amazing visual experience with powerful performance.

All-new professional design in a platinum color
Designed to meet tough military standards (MIL-STD 810G for drop, vibration, dust, humidity, altitude and high temperature) [5], the HP EliteBook p-series is the culmination of creative design and precision engineering. The professional series' aerospace-inspired HP DuraCase is presented in its signature platinum color with a timeless bead-blast finish and a precision aluminum-alloy hinge. Every aspect of the HP EliteBook 8460p — from its architectural form to its rich metal finishes — communicates class and professionalism.

Expand your view
The HP EliteBook 8460p features an easy-to-view 35,6 cm (14") diagonal HD display and supports up to four concurrent displays [6] with AMD Eyefinity Technology.

Built to conserve
HP Power Assistant [7] extends battery run time while reducing energy consumption. It is an integrated solution that measures and logs reported system energy usage through a simple interface.

Built to simplify
With HP QuickWeb [8] you can tap into fast, convenient and more secure access to the internet, email, contacts and calendar all at the touch of a button and without long boot-up times.

The HP EliteBook 8460p offers extended battery run-time and multiple battery solutions for both lightweight and extended battery life configurations [2].

Common docking options [6] allow professionals to share docking solutions in various locations.

Everybody On

HP EliteBook 8460p Notebook PC

Battery life	9-cell: Up to 13 hours and 45 minutes; 6-cell: Up to 8 hours and 15 minutes
Warranty	HP Services offers limited 3-year warranty 1-year limited warranty on primary battery, 3-year limited warranty on HP Long Life Battery (only available with 3-year platform warranty). On-site service and warranty upgrades are also available.

1 HD content required to view HD images

2 Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark www.bapco.com/products/mobilemark2007 for additional details

3 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Quad Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance

4 Intel HD 3000 not available with Celeron processors. Celeron configurations feature Intel HD graphics

5 MIL-STD-810G testing was not intended to demonstrate fitness for U.S. Department of Defense contracts or for military use. Test results are not a guarantee of future performance under these test conditions

6 Sold separately or as an optional feature

7 Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at www.epa.gov/egrid/. Regional results will vary. Microsoft Windows required. Requires discrete graphics configuration

8 HP QuickWeb is accessible when the notebook is off in Windows based systems. Internet access is required. Timing may vary depending on the system configuration. To enable the feature following the removal of the battery, reboot the notebook prior to subsequent use

Accessories and Services

HP Professional Series Topload Case

Designed for ultra-mobile professionals who are on the road frequently and for long periods of time.

Product number: AT886AA

HP 120W Advanced Docking Station

Robust desktop replacement solution for your mobile office with advanced features for future expansion.

Product number: NZ222AA

HP Display and Notebook Stand

The perfect home base for the business traveler who is constantly on the go - turn your HP Business Notebook into a desktop solution supporting up to two displays (notebook display plus external display). The adaptable design of the HP Adjustable Display Stand can accommodate a range of notebook sizes with the innovative adjustable shelf. This stand can also accommodate notebooks that can be connected to a docking station and notebooks that do not have a docking connector. Integrated base rollers let you rotate the stand so you can more easily share your work. A dual-hinged, smooth-motion display stand allows for greater depth, height and tilt adjustment for maximum comfort.

Product number: AW662AA

HP 65W Smart Travel AC Adapter

AC power adapters from HP power your notebook and charge the internal battery simultaneously. These adapters provide you with the ability to power your notebook when away from the office or on the road. The HP 65W Slim Travel Adapter is perfect for international travelers or "road warriors" who are always on the go. The adapter is 40% thinner than the standard 65W adapter and includes a convenient USB port for charging other accessories while you work. Four international adapter plugs help make sure your Slim Travel Adapter works wherever you do. A stylish protective carrying case keeps everything together.

Product number: AU155AA

HP Docking Station Cable Lock

The HP Docking Station Cable Lock is dramatically simpler to use than previous locks and delivers enhanced security. The HP Docking Station Cable Lock gives you two locking options: lock the docking station only (which also prevents access to the advanced docking stations drive bay) or lock both the docking station and the notebook.

Product number: AU656AA

3-year Next Business Day Onsite

Care Pack

Receive 3 years of next business day onsite repair from an HP-qualified technician for your computing device, if the issue cannot be solved remotely

Product number: U4415E
